THE CORPORATION OF THE COUNTY OF NORTHUMBERLAND

BY-LAW NO. 78 -08

A by-law formulating an Emergency Management Program in support of constituent municipalities to ensure the health, safety, welfare of people, and the protection of property and the environment.

WHEREAS, the Province of Ontario has passed an Act which provides for the formulation and implementation of emergency plans "*The Emergency Management and Civil Protection Act, Chapter E.9 R.S.O. 1990*" by the council of a municipality;

AND WHEREAS, the councils of constituent municipalities of Northumberland County have authorized the county's participation in the planning and response activities necessary during an emergency;

AND WHEREAS, the Corporation of the County of Northumberland desires to adopt an Emergency Management Program to provide full support to all municipalities within its boundaries during an emergency;

AND WHEREAS, the Act makes provision for the council of a municipality to enter into an agreement with the council of any other municipality or with any person for the provision of any personnel, service, equipment or material during an emergency;

AND WHEREAS, the Act authorizes employees of a municipality to take action under the emergency plan where an emergency exists but has not yet been declared to exist;

AND WHEREAS, for the proper management of its Emergency Management Program, the County of Northumberland desires to establish a committee to be responsible for the administration and implementation of the program.

NOW THEREFORE, be it enacted as a by-law of the Council of the Corporation of the County of Northumberland as follows:

1. That the Emergency Management Program as outlined in Schedule "A" to this By-Law is hereby adopted.
2. That certain appointed officials or their designated alternates, as provided in Schedule "A", are empowered to cause an emergency alert to be issued to members of the Control Group and to take action under the emergency plan where an emergency exists but has not yet been declared to exist.
3. That there is hereby established an Emergency Management Program Committee which shall consist of such senior members of the staff of the Corporation and other public agencies as outlined in Schedule "A" and any additional representatives as shall be designated from time to time. The Emergency Management Program Committee shall report to council through the chairperson.
4. Should any clause or subclause of the by-law be held to be invalid, illegal, or unenforceable, the validity, legality and enforceability of the remaining clauses or subclauses of this by-law shall not in any way be affected or impaired thereby.

By-law 72 -08

5. That By-Law No. 37-04 of the Corporation of the County of Northumberland is hereby repealed.

That By-law No. 72-08 be introduced and be deemed to be read a first, second and third time, be passed and be properly sealed at the Town of Campbellford this 10th day of December, 2008

Warden

Clerk

I, DIANE CANE, Clerk
of the Corporation of the County of
Northumberland do hereby certify
that this is a true copy of By-law
No. 72-08 of the said Corporation
Passed on the 10th day of December, 2008

Diane Cane, Clerk

**THE CORPORATION OF
THE COUNTY OF NORTHUMBERLAND**

**SCHEDULE "A"
BY-LAW NO. 72-08**

1. INTRODUCTION

Northumberland County is located along the north shore of Lake Ontario. The County is bound to the Region of Durham to the west, the City of Quinte West to the east, and the County of Peterborough to the north. Northumberland County encompasses The Municipality of Port Hope, The Town of Cobourg, The Township of Hamilton, The Municipality of Alnwick/Haldimand, The Township of Cramahe, The Municipality of Trent Hills, and The Municipality of Brighton. The Population of Northumberland County is 81,000

The Emergency Management and Civil Protection Act, R.S.O. 1990 Chapter E.9 defines an emergency as “a situation or an impending situation caused by the forces of nature, an accident, an intentional act or otherwise that constitutes a danger of major proportions to life or property.”

While many emergencies could occur within Northumberland County, those most likely to occur are Transportation Accidents (both rail and vehicular), Chemical Spills, Floods, and Hydro Power Failure. The effects and magnitude of an emergency will be determined by the type, location, time of day or night, season of the year, and weather conditions.

Unlike the effects of an emergency, which are determined by chance, a response strategy is always preplanned and never left to chance. Despite the best planning and preparation commitment which local authorities are capable of, there may be emergencies which, owing to the lack of equipment and resources immediately available, particularly acknowledging the geographic location of the municipalities and their distance from some specialized equipment and resources, the implementation of treatment may, of necessity, be delayed. The level of planning and training available to responders is a significant contributing factor when measuring the success of emergency operations. The higher the level is, the greater the chances of success.

The health, safety, welfare of people and the protection of property of the inhabitants of the County of Northumberland is the priority in the event of an emergency. It is for this reason that the County of Northumberland adopted the Emergency Management Program. The Emergency Management Program is designed to provide staff with guidelines to effectively manage the three distinct phases of the program, e.g., Pre-emergency, Emergency, and Post-emergency.

Information regarding Northumberland County’s Emergency Management Plan is available by contacting the Northumberland County Emergency Management Coordinator.

2. AIM

The purpose of the Emergency Management Program is to establish within the County of Northumberland an emergency plan in support of all constituent municipalities for the provision of:

- the most timely and efficient acquisition and deployment of requested human and material resources;
- the coordination of inter-municipal and provincial response activities;

- liaison between municipalities, boards of education, public utilities, industry, Ministries of the Province of Ontario and other public and private services and agencies.
- The request for assistance will most likely occur when the emergency exceeds the resources of the local emergency or when more than one municipality is involved and County assistance is requested.

3. AUTHORITY

A. The Emergency Management and Civil Protection Act R.S.O. 1990 Chapter E.9 is the legal authority for this plan.

The Emergency Management and Civil Protection Act R.S.O. 1990 Chapter E.9 Section 3.(1) states that

“Every municipality shall formulate an emergency plan governing the provision of necessary services during an emergency and the procedures under and the manner in which employees of the municipality and other persons will respond to the emergency and the council of the municipality shall by by-law adopt the emergency plan.”

Section 3.(3) further states that

“the council of a county may with the consent of the councils of the municipalities situated within the county co-ordinate and assist in the formulation of their emergency plans under subsection (1).”

Section 4.(1) further states that

“the head of council of a municipality may declare that an emergency exists in the municipality or in any part thereof and may take such action and make such orders as he or she considers necessary and are not contrary to law to implement the emergency plan of the municipality and to protect property and the health, safety and welfare of the inhabitants of the emergency area.”

Section 9.(c) further states that

“in the case of a municipality, designate one or more members of council who may exercise the powers and perform the duties of the head of council under this Act or the emergency plan during the absence of the head of council or during his or her inability to act.”

Lastly, Section 4.(2) states

“the head of council or the council of a municipality may at any time declare that an emergency has terminated.”

B. Action Prior to Declaration

When an emergency exists but has not yet been declared to exist, Northumberland County employees may take such action under this plan as may be required to protect property and the health, safety, and welfare of the County of Northumberland.

4. PRE-EMERGENCY GUIDELINES – EMERGENCY MANAGEMENT PROGRAM COMMITTEE

All constituent municipalities within the County of Northumberland have agreed to joint action with regards to emergency preparedness and each municipality is a participant in the mutual support agreement. The County of Northumberland Emergency Management Program Committee has been established in accordance with the mutual support agreement and The Emergency Management and Civil protection Act R.S.O. 1990 Chapter E.9 Section 9

The Emergency Management Program Committee will be responsible to:

- Guide and oversee the development of the County of Northumberland Emergency Management Program;
- Coordinate the provisions of the emergency management program with and between the County of Northumberland, constituent municipalities, provincial ministries and other services and agencies operating within the county;
- Meet at least annually for the purpose of reviewing and recommending changes to the Emergency Management Program;
- Formulate recommendations for change to emergency policy to county council;
- Identify hazards affecting the safety of citizens; assess the risk required to protect the citizens; and identify the need for contingency plans;
- Establish and maintain a suitably equipped Emergency Operations Centre;
- Establish and maintain a suitably equipped Emergency Inquiry and Media Centres;
- Develop and oversee the implementation of a training and exercise program;
- Prepare annually a budget for presentation to county council in support of the Emergency Management Program.

5. EMERGENCY NOTIFICATION, DECLARATION, and TERMINATION OF EMERGENCY

a. Notification

When an emergency occurs, the total emergency response will be controlled by the Emergency Control Groups of the constituent municipalities affected. The role of the County of Northumberland is to support the response activities of the stricken municipality(ies).

The County of Northumberland Emergency Management Plan may be activated in support of a constituent municipality as follows:

- At the request of a municipality;
- At the discretion of the Warden or CAO when two or more municipalities are involved in the same incident;
- At the discretion of the Warden or CAO when County resources are being consumed in such a manner as to place a strain on these resources;
- When County facilities are threatened;
- By the CAO on the recommendation of a department head.
- By order of the Premier in accordance with the provisions of the Emergency Management Act of Ontario R.S.O. c.E.9s.7(1) 1990.

An emergency response by the County of Northumberland shall complement the emergency response of the constituent municipality(ies). Unless specifically requested to do so by a municipality and notwithstanding a declaration from the Premier (R.S.O.c.E.9s.7(1) 1990), emergency coordination by the County shall in no way substitute or supersede any emergency plan or response of a constituent municipality.

Northumberland County will activate the County Emergency Operation Centre when a constituent municipality activates the Municipal Emergency Operation Centre. When as a result of an emergency, the emergency plan of a constituent municipality is activated; the head of council of the affected municipality shall immediately notify the

Northumberland County by contacting the County's contracted Dispatch Company. The Dispatch Company will commence notifying the County Control Group members.

The County Control Group members will report to the Emergency Operations Centre as directed by the Dispatch Company. The Emergency Inquiry and Media Centres are to be activated as required.

The assembled County Control Group Members will assess the situation to determine the need for further more staffing. Each member will be responsible for continuing the Contact fan out to assemble their department as required. The assembled members will also continue to arrange for any members who have not arrived at the Operation Centre.

Operations within the Emergency Operations Centre will only be successful when the Community Control Group adopts a cooperative team approach to problem solving. The role of the county is to support constituent municipalities by providing inter-municipal coordination, liaison and coordination of the provincial response with constituent municipalities, and the procurement and delivery of resources in accordance with the Mutual Support Agreement.

When an emergency occurs that involves county facilities or services, the department head involved will notify the County CAO with a recommendation to activate the emergency support plan. The department head will then fulfill their mandate and assist as required.

Upon being notified, it is the responsibility of all Community Control Group members to notify their staff and volunteer organizations.

b. Assistance

Assistance may be requested from the Province of Ontario at any time by contacting the Duty Officer of Emergency Management Ontario. The request shall not be deemed a request that the Province assume authority and control of the emergency.

c. Declaration of an Emergency

Upon declaring an emergency, in consultation with the Community Control Group, the Warden shall notify:

- Duty Officer of Emergency Management Ontario
- County Council
- Officials of the municipalities within Northumberland County
- Public
- Neighboring community officials
- Local members of Provincial and Federal Parliament.

d. Termination of an Emergency

An emergency may be considered terminated when the threat to life, property and the environment no longer exists, and the municipality(ies) has returned to a semblance of normalcy. This means that residents evacuated have now returned to their homes, or if their homes were badly damaged or destroyed, that temporary shelter has been found. If services provided to residents, e.g., sewer, water, hydro were damaged, the emergency is not over until services are restored either on an improvised short-term or a permanent basis.

Upon terminating an emergency, in consultation with the Community Control Group, the Warden shall notify:

- Duty Officer of Emergency Management Ontario
- County Council
- Officials of the municipalities within Northumberland County
- Public
- Neighboring community officials
- Local members of Provincial and Federal Parliament.

IMPLEMENTATION – COMMUNITY CONTROL GROUP

a. Emergency Operations Centre (EOC)

The location of the primary Emergency Operations Centre is the Northumberland County Administration Building, 555 Courthouse Road Cobourg.

The location of the secondary Emergency Operations Centre is the Hamilton Township Administration Building, 8285 Majestic Hills Drive, Hamilton Township. All constituent municipalities offer the use of their operation centre as alternate sites.

Upon notification, the Community Control Group shall report to the primary Emergency Operations Centre or other location as dictated at that time.

b. Community Control Group (CCG)

In order to provide the support requested by the stricken municipality(ies) in a timely and effective manner, the County of Northumberland has established a Community Control Group comprising the following members:

d. RELATIONSHIP BETWEEN THE COMMUNITY CONTROL GROUP AND EMERGENCY SITE MANAGER

Depending on the nature of the emergency, and once the Emergency Site Manager has been assigned, the Community Control Group will offer support to the Site Manager. The communication may possibly be via the local municipality affected. This support may be for equipment, staff, or other resources as required.

e. RELATIONSHIP BETWEEN THE EMERGENCY SITE MANAGER AND CONTROL STRUCTURES OF EMERGENCY RESPONDERS

The senior representative for each emergency responder (police, fire, EMS, transportation & waste) at the site will consult to decide on an Emergency Site Manager. The remaining representatives will consult with the Emergency Site Manager so as to coordinate an effective response. Regular briefings will be held at the site and chaired by the Emergency Site Manager, so as to establish the manner and process by which response to the emergency will be provided.

8. EMERGENCY CONTACT SYSTEM – COMMUNICATIONS PLAN

It is the responsibility of the constituent municipality who has activated their emergency plan to notify the Northumberland County. The Municipal Control Group will contact the County's Dispatch Company, who will then proceed with the notification as per the Contact List. The caller will provide information concerning the nature and magnitude of the emergency and the type of assistance being requested.

When a Northumberland County Department Head becomes aware of a situation that will involve the county or whose staff is already responding to an emergency, he/she will contact the County's Dispatch Company, who will then proceed with the notification as per the Contact List.

The dispatch company will need to know:

- **TYPE** and **LOCATION** of the emergency
- **INJURIES** or **FATALITIES** sustained
- Initial **ACTION** taken
- **NATURE** of **REQUEST**

At the request of a constituent municipality, the County Chief Administrative Officer may activate the Northumberland County Emergency Management Plan. When this occurs, the County Chief Administrative Officer will notify the Warden, provide details on the incident, the nature of the request, and request to proceed with the emergency alert.

It is to be noted that a county response is not to be delayed in order to gather information.

Unless otherwise instructed, the members of the Community Control Group will report to the primary Emergency Operations Centre located in the county building. If for any reason the primary Emergency Operations Centre is not available, the alternate facility located in the Hamilton Township offices will be used. Should neither the primary or alternate Emergency Operations Centre be available, the Chief Administrative Officer will designate a suitable location and inform the Community Control Group.

Upon implementation of the Emergency Management Plan, it will be important to ensure continuous communications between the Emergency Operations Centre, emergency sites, evacuation centers, hospitals, and other key responding agencies.

Each Control Group Member will communicate with their respective staff and agencies using landline phones, cell phones, and County Radio System. The County Radio System allows for communication between the County Public Works Department, the constituent municipal works departments, and the constituent municipal fire departments.

Should all telephone and radio communications fail, assistance could be arranged by support staff physically delivering messages rated as top priority. Assistance could also be arranged with local taxi companies.

NOTE: Agreements with local Amateur Radio Operators and taxi companies have yet to be established, and are subject to availability.

9. EMERGENCY INFORMATION PLAN

During an emergency, information must be communicated between the public and Community Control Group. This information could be the status of the emergency, evacuation information, detour routes, etc. A Media Centre will allow a means for the Community Control Group can use the media to relay the organized information to the public. An Inquiry Centre will allow a method for the public to phone for first hand communication. This will ensure that the public understand the information being delivered by the media and to discuss any concerns the public may have.

Media Monitoring Centre

The purpose of the Emergency Media Monitoring Centre guide is to ensure that in the event of an emergency a rapid mobilization of staff and volunteers takes place in order to provide the residents of the county with the most timely and accurate information available. The Emergency Media Monitoring Centre is located in Room 107, Ground Floor of the County Building. Media Interviews will be conducted in the Lower Floor Lobby.

The ease with which essential emergency related information can be gathered, correlated and disseminated to the public has long been recognized as one of the essential elements leading to a successful community emergency response. The media has a responsibility to gather emergency related information for publication or broadcast. The public has a right to know what has occurred and what is being done to remedy the situation. The Community Control Group of the County of Northumberland is responsible to provide the media with timely and accurate information on the overall county response.

In a declared emergency, media inquiries and requests for interviews will not be limited to local outlets. The county can expect an influx of local, national and international media representatives. This convergence by the media will place a severe strain on the limited county resources. Failure to react in a prompt and positive manner can lead to undesirable results from both a public relations and operational perspective.

Under the Emergency Management Program, the County of Northumberland will provide a focal point for all media inquiries. The establishment of the Emergency Monitoring Media Centre is not an attempt to control the media nor is it an attempt to usurp the authority of the area municipality to report on their emergency. Rather, it is intended to support the area municipality through the coordination of media releases. Coordination will eliminate conflicting statements and improve the quality of releases.

The Manager of the Media Centre, also the Emergency Information Officer, is responsible for the set up of the centre. As the Emergency Information Officer, the Manager will be the media spokesperson.

On receipt of the alert, the Emergency Media Centre's Manager will notify designated staff in accordance with the Emergency Contact System. If not already there, the Manager will proceed to the Emergency Media Monitoring Centre activate the centre in accordance with the Action Checklist.

The media will be contacted as per the media list and informed of the opening and location of the centre. Media representatives will be given the Emergency Inquiry Centre's telephone number(s) and will be requested to publicize the number(s).

The Manager will designate staff as necessary to register media representatives and to monitor media broadcasts. A report on the centre's state of readiness will be made to the Administrative Coordinator located in the Emergency Operations Centre. At the same time, a schedule of

media briefings on behalf of the Warden will be confirmed. A request for additional personnel when required will be made to the Administrative Coordinator.

Inquiry Centre

The objective of the Public Inquiry Centre guide is to ensure that in the event of an emergency, a rapid mobilization of staff and volunteers takes place in order to provide the residents of the county with a focal point for their questions and concerns. The Public Inquiry Centre is located in Meeting Room B (Room 108) on the Ground Floor.

The residents of the County of Northumberland require a central contact point where emergency self-help information may be obtained or where progress reports on response activities would be made available. Conversely, residents with first hand knowledge of local conditions and problems need a location where their information can be received and acted upon. It is the intention of the County of Northumberland to provide this service through the establishment of the Emergency Inquiry Centre.

The Manager of the Inquiry Centre is responsible for the set up of the centre.

On receipt of the alert, the Public Inquiry Centre's Manager will notify designated staff in accordance with the emergency contact system. If not already there, the Manager will proceed to the Public Inquiry Centre located as a station in the Emergency Operations Centre and activate the centre in accordance with the Emergency Action Checklist.

The media will be contacted as per the media list and informed of the opening of the centre. Media representatives will be given the Emergency Inquiry Centre's telephone number(s) and will be requested to publicize the number(s).

The Manager will designate staff as necessary to answer emergency inquiries and receive and process emergency related information. A report on the centre's state of readiness will be made to the Control Group located in the Emergency Operations Centre. A request for additional personnel to assist with the incoming calls will be made to the Administrative Coordinator.
