

Rules & Tips

Tie your brush into bundles no longer than 3ft, and with no material larger than 2" diameter.

Each bag/bundle must weigh less than 40 pounds (18 kg).

There is no limit to the number of paper leaf & yard waste bags or bundles of brush for collection.

Roll tops of the bag shut. Rolling the top sheds the rain and snow and prevents leaves from falling or blowing out.

Leaves that are not in paper yard waste bags will not be picked up.

Only use paper yard waste bags. Paper yard waste bags are available at most local hardware stores and building centres.

Please do not include: garbage, litter, animal feces, or soil.
